ReactJS Developer

Results-driven ReactJS Developer with 4+ years of experience designing and optimizing responsive, high-performance web applications using ReactJS, TypeScript, Next.js, and modern state management (Redux Toolkit, React Query). Proven track record in developing modular component systems, real-time data streaming via WebSockets, and integrating complex cloud-backed APIs across healthcare and enterprise platforms.

SKILLS

FRONTEND: ReactJS, TypeScript, Next.js, Redux Toolkit, React Query, Tailwind CSS, Material UI, Ant Design, Bootstrap

BACKEND & APIS: Node.js (Express), REST API, WebSockets, Axios

DATABASES: PostgreSQL, MongoDB

CLOUD & DEVOPS: Docker, CI/CD, AWS Cognito, Linux Server Administration

WORK EXPERIENCE

LYXA SAL

July 2025 – Present

Frontend Developer (ReactJS)

Dhaka

- Architecting modular component systems and optimizing rendering performance for responsive web applications using ReactJS and TypeScript.
- Integrating real-time bi-directional data flow using WebSockets and robust REST APIs, collaborating with cross-functional teams to streamline UI/UX workflows.

FLUX IT

May 2021 – June 2025

Software Engineer (Full Stack)

Dhaka

- Frontend: Built responsive, accessible web apps with ReactJS, Redux Toolkit, and React Query; optimized load times and bundle sizes via code splitting and lazy loading.
- Backend: Engineered robust RESTful microservices and server-side logic using Express.js, MongoDB, PostgreSQL, containerized with Docker.
- Engineering Standards: Participated in agile sprints, led code reviews, and championed unit testing and CI/CD pipelines to ensure release reliability.

PROJECTS

LYXA CONSOLE PANELS

Built high-performance operational dashboards for admins, vendors, shops, and riders, leveraging Socket.io and Redux Toolkit for real-time streaming and state caching.

BIOVICA

Developed scalable frontend features with ReactJS and integrated APIs for complex Medical Report Generation using Puppeteer within an AWS Serverless architecture.

CONNECTIVITY WISE

Built a secure Medical Report Management and authentication system utilizing the HL7 MLLP Protocol.

SKIM LEGAL

Led Backend API Development, Frontend Design, and API Integration to streamline legal report generation.

EDUCATION

M.Sc. in CSE

UNIVERSITY OF BARISHAL

Barishal, Bangladesh • 2023 – 2024 • CGPA: 3.04

B.Sc. in CSE

UNIVERSITY OF BARISHAL

Barishal, Bangladesh • 2018 – 2022 • CGPA: 3.19
